

Roberson Joins Telos-Omnia-Axia Marketing Department

2 January, 2007, Cleveland Ohio, USA

Telos Systems is pleased to announce the appointment of Angi Roberson as Marketing Coordinator for Telos-Omnia-Axia, effective Tuesday January 2.

Roberson's experience in the broadcast industry began nearly 12 years ago at Pacific Recorders and Engineering (PR&E), where she managed the customer service team and coordinated all major trade shows and public events. Most recently she served as Marketing Director for a Southern California based service company.

"I'm extremely excited to be joining the Telos-Omnia-Axia family," says Roberson. "These companies are recognized leaders in their field, and I am confident that my background in broadcast and marketing will enable me to successfully coordinate the marketing and public relations of Telos Systems. I am honored and ready for the challenge!"

In this new position, Roberson will oversee all marketing initiatives for Telos-Omnia-Axia and will team with Axia's Clark Novak to coordinate and implement all communication projects. Additionally, Roberson will support public relations, special events management, advertising and creating brand awareness.

"We are delighted that Angi is coming aboard. I know that her great skill and experience within the marketing arena will enable us to continue to serve our clients in a first-rate way" says Denny Sanders, Managing Director Telos-Omnia-Axia.

Caroline Dorsey-Dreier has resigned and will relocate to Chicago to be with her husband, Oliver. All Telos-Omnia-Axia staff members wish her the very best, and thank her for six years of great service to the company.

For more information, contact Angi Roberson at Telos Systems, +1-216-241-7225.

Telos Systems, headquartered in Cleveland, Ohio with offices in Europe and Canada, is a leading manufacturer of ISDN, coded audio and telephone interface products for talk-shows, teleconferencing, audio production, remote broadcasts, and intercom applications. www.telos-systems.com
